ATLAS Courseware System Requirements

To ensure your system meets your courseware's requirements, please confirm the following (see your local system administrator / help desk for assistance):

- Browsers Supported:
 - Highly recommended – Internet Explorer 5.5+ (6.0 is preferred and required for most courseware)
 - Netscape 7.1+ (not recommended for use with course ACQ201A)
- Java Runtime Environment v1.4.2_09 or 1.5.0_02 (If a “Launching...” message is displayed indefinitely when accessing a lesson, this is usually related to the lack of this plug-in, or it is damaged)
- Macromedia Shockwave Flash Player version 7+ (required for some courseware, including ACQ201A and SYS201A)
- Windows Media Player version 7+ (required to access video media in some courseware, including CLM003 – Ethics Training (clicking the “Show Text” link below a video will display the audio script from the video))
- Adobe Acrobat Reader version 6+
- Screen area (resolution) set to 1024x768 pixels
- Disable pop-up blockers
- Ensure cookies are enabled (to a Medium level)
- Access the DAU Virtual Campus login screen via <https://learn.dau.mil> When Bookmarking this site, you will want to edit it to ensure this exact address is saved, otherwise load-balancing will not occur.)
